

**WE BEAT ON  
OUR MACHINES  
UNTIL THEY  
GIVE IN.**

**WHICH IS NEVER.**

Born offroad in the forests and mines  
of North America, we continue to  
thrive there today. And will thrive for  
years to come. Because a Star is built  
with features that stand the test of  
time. Not to mention any other tests  
you'll put it through on the job site.

**THE XD OFFROAD IS THE NEXT STEP IN A LONG  
LINE OF TOUGHNESS. WE MOVED BOULDERS  
THAT WOULD CRUMBLE MOST OTHER  
MANUFACTURERS. TOOK OUR MACHINES TO  
THE ENDS OF THE EARTH AND HAULED SEVERAL  
TONS OF THAT EARTH BACK. WE PUT THIS  
RUGGED PIECE OF EQUIPMENT THROUGH SOME  
OF THE MOST EXTREME JOBS OUT THERE.  
AND NEVER ONCE DID IT CRY MERCY.**

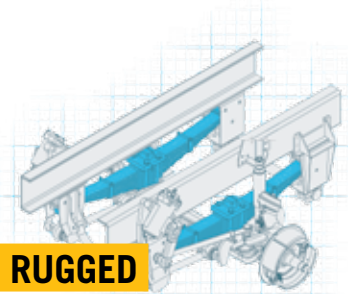

# IT DOESN'T HAVE A BREAKING POINT, JUST A STARTING POINT.

The Western Star XD Offroad is serious offroad equipment that tackles the most rugged environments. Where the others fall by the wayside, the XD is just getting started with several features that kick the toughness factor up a few hundred notches. Take a look at what makes the XD Offroad package unique.

## CYCLE TIME EFFICIENCY

Superior fuel economy, combined with easy, low-cost maintenance and top speeds of more than 45 MPH — in the proper application — makes for unmatched cycle time efficiency compared to other off-road equipment.

## RUGGED

## SUSPENSIONS

Western Star XD Offroad suspensions offer the maximum in ground clearance, handling and uptime. Using a double-slipped spring suspension, we control the springs with heavy-duty track rods that eliminate the need for spring pins and allow the spring packs to slide on wear pads without shock loading.

## LOW

## MAINTENANCE COST

Western Star XD Offroad vehicles minimize downtime and maximize uptime with features like:

- Butterfly hoods to ease engine access
- Point-to-point wiring with an in-cab fuse panel for simplified diagnosis
- Quick disconnect system which allows the entire fender and air cleaner to be easily removed in one piece for larger engine work

## PLANETARY GEARSETS

Combined with one of our proven transmission options, our planetary gear sets allow you to haul massive loads while still keeping the chassis accessible. This reduces preventive maintenance time and lowers the cost of operation.

## LOW

## ACQUISITION COST

The hallmark feature of the Western Star XD Offroad Platform is the money it saves you and makes you. The combination of its low acquisition and maintenance costs, uptime, fuel economy and cycle times make it the right choice for very profitable operations.

# **INTRODUCING THE XD.**

## **IT GIVES YOU XL SAVINGS, DEPENDABILITY AND EFFICIENCY.**

You want a piece of equipment you can take to any mine, oil field, quarry or job site — and to the bank. The Western Star XD over-delivers with a versatile platform that provides:

**More tons per mile**

-

**Greater fuel efficiency**

-

**Variety of engine options**

-

**Simplified maintenance**

-

**Lower purchase/operation cost**

The XD stands for Extreme Duty.  
And we named it that for a reason.

### **WEARS A BUNCH OF HARD HATS ON THE JOB SITE.**

The XD can be bodied up for just about anything, or in some cases, everything. There's even a model that reduces costs by changing bodies easily with a single universal chassis. Versatility is its middle name.

## FEATURES

# IT'S A PRODUCTIVITY MACHINE.

Easy-to-access components equal more up time. An expansive Daimler network provides better parts availability. A heavy-duty chassis is built for the long run. Like you, the Western Star XD Offroad isn't one to sit around wasting time or money.

### SIT IN AN XD. FEEL THE STRENGTH OF DAIMLER BEHIND YOU.

Get behind the wheel of the Western Star XD and certain things come with the territory. You have access to one of the largest dealer networks around the globe ensuring you can get what you need pretty much anytime, anywhere. You get to work with a name that's synonymous with quality. And you'll have it all at a fraction of the cost of the competition.

We look forward to rolling with you.

### PROVEN POWER FROM DETROIT.

In the middle of nowhere you don't want an engine from who knows where. You want one that's proven reliable time and time again. You want fuel efficiency taken to a whole new level. Say goodbye to Tier 4 technology, and hello to Tier 5 from Detroit.

### THIS CAB IS TOUGH ON THE OUTSIDE, COMFORT ON THE INSIDE.

Safety is tantamount to comfort with the Western Star XD Offroad. That's why it offers:

- Galvannealed steel cab that protects you and lasts for years
- Extra cab gussets and reinforcements for better strength
- Added interior insulation for comfort and quiet
- Ample space for you and all your gear

Just remember it's for work, because you'll feel right at home.

### DURABLE. TIMES FOUR.

Quadruple frame rails means you have four times the strength, four times the toughness and four times the flexibility – and resiliency – of a standard chassis. Which equals longer equipment life for you over the competition.
